# North Carolina in the Great War

January 7th, 2018 - March 24th, 2018

2018 marks a century since the end of World War One. "North Carolina in the Great War" not only explores the history of WWI, but also the North Carolina connections. Local Surry County stories and artifacts are highlighted through the exhibit.

Tours of the exhibit, hands-on activities, and primary source analysis will perfectly supplement WWI history lessons for upper elementary, middle, and high school grades.

# *A Forest Journey*

**April 7th, 2018 - September 3rd, 2018**

**"A Forest Journey" explores the history and science of forestry in the United States. STEAM-based activities will help students learn more about forests, their role and importance in society, and the effect humans can have on them.**

**Hands-on activities and exhibit tours are great additions to both history, science, and environmental curriculum for ALL grades!**
